

# ENVIROMATE E3 STEAM CLEANER

## SWISS ARMY KNIFE OF STEAM CLEANERS

The new EnviroMate E3 is a powerful flexible and efficient cleaning device that is the natural alternative for those who seek an alternative cleaning and sanitizing method to using harsh chemicals.

## WHY CLEAN WITH STEAM?

Steam deodorizes and sanitizes with heat and moisture and since the only ingredient required for the EnviroMate E3 is water, cleaning your home or work place has never been safer, healthier or more environmentally friendly. The Reliable E3 kills dust mites and bed bugs on contact, removes allergens, kills bacteria, and removes mold and mildew. It is ideal for cleaning and sanitizing tile floors, grout, kitchens and bathrooms, children's toys, workout rooms, auto interiors, scatter rugs, pet areas, and much more.

## FEATURES

- 18/10 Stainless steel tank
- 1780W heating element
- 302° - 320° F boiler temperature
- 221° F tip temperature (distance 0.8")

### 13-PIECE MADE IN ITALY ACCESSORY KIT

Making the best steam cleaner includes using superior quality accessories. Everything you need to get started is included. Just add water!

### ADJUSTABLE PRESSURE CONTROL

Some cleaning tasks will require more steam some will need less. The choice is yours with the E3. A childproof locking mechanism is also standard.

### DETACHABLE 7 FT. STEAM HOSE

To make storage of your E3 easier, the unit is equipped with a detachable, long life stainless steel steam hose.

### AUTO SHUT OFF WITH LIGHT

When the E3 runs out of water, the heating element will automatically shut off, and a light on the control panel will indicate it is time to refill the unit.
