

# ENVIROMATE E5

The new EnviroMate E5 is a powerful flexible and efficient cleaning device that is the natural alternative for those who seek an alternative cleaning and sanitizing method to using harsh chemicals. With Reliable exclusive CSS™ (Continuous Steam System) technology, you'll never have to worry about running out of steam because you'll be able to add water to the reservoir while you're cleaning. The reservoir pumps water to the boiler whenever needed for non-stop vapor.

## FEATURES

- 18/10 Stainless steel tank
- 1450W heating element
- 302° - 320° F boiler temperature
- 221° F tip temperature (distance 0.8")

### CSS TECHNOLOGY

With CSS you will never run out of steam in the middle of cleaning again. Simply refill the water tank when the water level is low and away you go.

### MADE IN ITALY 13-PIECE ACCESSORY KIT

Making the best steam cleaner includes using superior quality accessories. Everything you need to get started is included. Just add water!

### BONUS 7-PIECE ACCESSORY KIT

The perfect add on kit (\$100.00 retail value) is included at no extra charge for the E5, making it both a great steamer and a great value.

### ADJUSTABLE PRESSURE CONTROL

Some cleaning tasks will require more steam some will need less. The choice is yours with the E5. A childproof locking mechanism is also standard.

### DETACHABLE 7 FT. STEAM HOSE

To make storage of your E5 easier, the unit is equipped with a detachable, long life stainless steel steam hose.

### AUTO SHUT OFF WITH LIGHT

When the E5 runs out of water, the heating element will automatically shut off, and a light on the control panel will indicate it is time to refill the unit.
