

Vapamore Steam Cleaner

Uses a boiler to heat tap water to high temperatures (240 to 310 degrees) causing the water to be transformed into a very fine, dry mist. The vapor is made up of about 5 to 6% water, so surfaces dry quickly. The vapor particles are much smaller than steam particles allowing the ability to clean in tighter spaces. In 2005, the University of Washington tested a vapor steam cleaner and said "the steam vapor's low moisture and high temperature provides deeper cleaning because it penetrates into the pores and crevices better than topically applied cleaners. Since steam vapor cleaners use no chemicals, there is a benefit to indoor air quality, no hazards or risks from using and storing chemicals, and no harmful chemical residue left after the cleaning process.

The Vapamore uses dry vapor steam that loosens dirt, grease and grime. The penetrating steam kills allergens, viruses, bacteria, mold and mildew without using any expensive and toxic chemical cleaners.

The Vapamore Steam Cleaning System is chemical-free GREEN cleaning at its best.

Just fill it up, turn it on, and start cleaning in minutes.

Features:

- 1500w 18-10 Stainless Steel Boiler
- ETL listed to UL Standards
- Adjustable Pressure Control
- 6' Detachable Steam Hose
- 18' Electric Power Cord
- On-board Attachment Storage
- 45+ Minute Operation Time
- 17 Accessories & Attachments

Use the Vapamore everywhere in your home to clean floors, tiles, grout, countertops, sinks and toilets. Remove baked on food and grease from ovens and barbeque. Lift stains from carpets and upholstery. Clean grease and dirt from automobile wheels and tires, engines and tools. Steam clothing to freshen and remove wrinkles. Sanitize children's toys and pet beds. Remove dried on paint and adhesives. Kill germs, allergens, dust mites and bedbugs. The possibilities are endless.

Attachments:

- 1) Steam gun with hose
- 2) Accessory adaptor
- 3) Detail accessory nozzle
- 4) Jet detail nozzle
- 5) Nylon detail brush
- 6) Metal detail brush
- 7) Floor cleaning head
- 8) Floor cotton mop cover
- 9) 2 in 1 clothes / fabric
- 10) Clothes / fabric cover
- 11) 2 in 1 window / surface
- 12) Extension tubes (three)
- 13) Fill funnel
- 14) Measuring cup
- 15) Cord reel
- 16) Accessory storage bag
- 17) Nylon grout brush
